Education:

2020-2024 Haaga-Helia University of Applied Sciences, Pasila Campus – Business Information Technology (BA)
Topics: Software Engineering, User Experience, Databases, ICT Infrastructures, Linux studies.

2014-2020 Neumann János Vocational School of Information Technology
Topics: Basics of Software Engineering, Office Tools, Databases, Basics of Networking, Basics of Web Development.
Qualification for Computer System Maintainer.

Work Experience:

2019-2020 **Budapest Park:** Staff position, which is related to customer service support. One of my biggest responsibilities was to make sure the environment is safe and clean, and that the bar counters were always fully stocked and refilled right before or during the concerts if necessary.

2018-2019 **IKEA:** Storekeeper position. For delivery, I had to prepare the items that customers ordered online, and I also had to make sure the shelves were always fully stocked with adequate amount of supplies.

2016-2018 **Spar:** Shop Assistant position. I had to make sure the shelves were always fully stocked with adequate amount of supplies and the store was kept clean. Also, I had to talk with the customers whether they had any questions.

2015-2016 **TESCO:** Shop Assistant position. I had to make sure the shelves were always fully stocked with adequate amount of supplies and the store was kept clean. Also, I had to talk with the customers whether they had any questions.

Language knowledge:

Hungarian: Mother tongue.
English: Conversation/Negotiation level.

Experiences:

2018 - Driving License B.
